What's New Video:

- Successful Dance Festival. Discussed changing to every other year to cut down on losing instructional time for practices; students are getting tired of it, maybe they will be

more enthusiastic if it's not every year. Mixed feelings. Great tradition but students are struggling with desire and respectful behavior during event. Great opportunity to raise donations for Jared Boren Leadership Scholarship. PTO possibly provide incentives for students to willingly participate in practices. How do we get more buy in from teachers and students? Meet w/teachers and PTO to brainstorm ideas.

- Veteran's Day Assembly: Wonderful assembly, one of the best of the year. Best to do it on the Friday before Veteran's Day to avoid conflicts with other Veteran's Day events.
- Lighthouse students food drive: Participation is down this year. Lots of Utah Food Bank items showing up. Harder for families to make ends meet and have extra to donate.
- All teams now have growth goals in place, with Kindergarten, 1st, 3rd, and 4th showing significant growth. Yay! 2nd & 5th are showing growth but not as much. Kindergarten higher than district average. Still room for growth but lots of reasons for celebration. Focusing on student engagement among other strategies are paying off. We are making gains! How can we encourage more parents to read with their children, and have their children read at home, recognizing that parents are busier than ever before?
- Official title one status: 53%; need to be at 57% to qualify for TI status. We are officially no longer a title one school. Ellie Beatty's fundraiser for school supplies at the beginning of the year and it was phenomenal. We were able to spend less than ever before on supplies to start the year. What is really needed is help with the cost of Leader In Me each year, since we lost TI funding.

Discussion Items:

Growth goals

TSI Meeting: RISE testing/upper grades. Lower performing students need to make measurable growth. ESL para will be expanding her role in order to more intensively work with students who need to make progress. Plan in place to try to meet each student's needs based on all factors.

Observations: Admin is more intensively observing classrooms and all aspects of the school day.

Reunification Drill: November 18th at the end of the school day (2:15-3:15) & volunteers: Jacey will ask PTO members to help participate. Communication dept at district level will draft an email that can be sent out in event of a real evacuation/reunification. Admin will figure out a traffic pattern to accommodate the large amount of cars coming through the

pick up line. After the drill we will communicate with parents important information that they will need to know in the event of an emergency evacuation/reunification.

Crossing Guards on SR9 have been leaving at 8:55. They need to be staying until at least 9:15. Gabbi will speak to Chief Nuccitelli. Also, UDOT will be considering making that section of SR9 a school zone.

Jacey moved to adjourn; Ellie seconded.
